ALCOHOL AND DRUG PROGRAM ADMINISTRATION
PROPOSITION 36 - LEVELS OF SERVICES
EFFECTIVE JULY 1, 2009

1. Cases referred for Proposition 36 placement will not undergo the standard Community Assessment Services Centers (CASC) assessment process. The CASC will provide brief screenings and referral services to treatment using the Addiction Severity Index (ASI) Lite.
2. The CASC will identify participants who have already received two or more Grants of Probation under Proposition 36. These persons will be advised as to the information on record and returned to the Court for proper management. The CASC will update the assessment record and note this information in the comments section.
3. The Treatment Courts and Probation eXchange (TCPX) will continue to operate as a browser-based, real-time application to support the client referral, treatment operational, and administrative requirements of the Proposition 36 program.
4. Initial and Progress Reporting - All treatment reports will be prepared in hardcopy format and will be delivered to the courthouse by the participants. For documentation and continuation purposes, progress reports will be entered and generated by the TCPX system. Progress reporting to the Court will be set as follows:
 - Sixty (60) day treatment progress report
 - One-hundred-eighty (180) days treatment report for final review and dismissal
